PROFESSIONAL SUMMARY

ML Engineer with strong expertise in Python, Scikit-learn, and TensorFlow, deploying models to production using Docker and REST APIs. Experienced building end-to-end ML pipelines for Indian analytics firms and product companies. Solid foundation in statistics and feature engineering.

TECHNICAL SKILLS

Programming Languages: R, C++, Java, SQL, Python

ML Libraries & Frameworks: PyTorch, LightGBM, Scikit-learn, NumPy

Tools & Technologies: Git, Pandas

Data Engineering: Kafka, NoSQL, Airflow, Hadoop, SQL

Soft Skills: Attention to Detail, Critical Thinking, Leadership, Adaptability

WORK EXPERIENCE

Machine Learning Engineer

KPIT Technologies | Andhra Pradesh | July 2023 – Present

- Built and deployed 4 production ML models using R and C++ serving 100K+ predictions/day.
- Reduced model inference time by 50% through quantisation and ONNX export optimisation.
- Automated retraining pipelines using Java, ensuring model freshness with zero manual intervention.
- Collaborated with data engineering to design feature stores reducing feature computation time by 3x.

PROJECTS

Medical Image Classification using CNN

Tech Stack: NumPy, Python

- Built a ResNet-50 transfer learning model for pneumonia detection from chest X-rays.
- Trained on NIH dataset (10K images), achieving 94% accuracy and 0.92 AUC.
- Implemented Grad-CAM heatmaps for model interpretability and clinical validation.

Real-Time Object Detection for Smart Surveillance

Tech Stack: Python, PyTorch

- Trained a YOLOv8 model on a custom 15K-image dataset for multi-class object detection.
- Achieved mAP@50 of 0.87 with real-time inference at 30 FPS on edge devices.
- Integrated OpenCV pipeline for video stream processing and alert generation.

EDUCATION

B.Tech – Data Science

Bharath University | 2023 | CGPA: 8.63

Class XII – BIE

2019 | 98.2%

Class X – BSE

2017 | 88.0%

CERTIFICATIONS

- AWS Certified Machine Learning – Specialty
- Google Professional Machine Learning Engineer
